## The magic of natural pulsating magnetic fields and frequencies

Electromagnetic fields and frequencies have been used successfully for decades in various applications such as wellness, therapy and fitness to promote well-being.

The  $B^2$  is a fashion accessory and at the same time a masterpiece of our engineers in the field of wellness and fitness. By integrating natural magnetic field conditions and earth resonance frequencies, better known as Schumann frequencies, the  $B^2$  becomes a stylish companion that can have positive effects on your well-being.

The aim of the development was to find a technical way to compensate for the prevailing problems of Schumann anomalies and the loss of the earth's magnetic field intensity using natural frequencies and electromagnetic field movements.

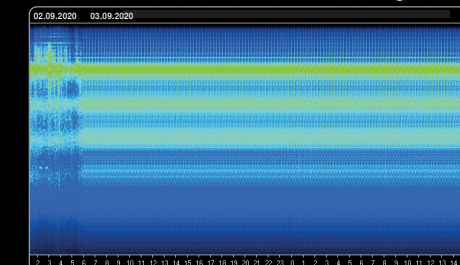

## Balance despite earth anomalies

In the last few centuries, the intensity of our Earth's magnetic field has decreased by more than 50%.

Since 2014, measuring stations have recorded significant anomalies in Schumann resonance field conditions, which previously seemed stable. Possible explanations range from shifts in the magnetic poles, climate change, global warming and increased volcanic activity to changes in the Earth's axis and discharges in the Earth's atmosphere.

The Schumann frequencies, in particular the well-known fundamental frequency of 7.83 Hz, are decisive for health and well-being. It is believed that the stability of the Earth's electromagnetic environment is linked to the normal functioning of the human brain and body.

The **BUBBLE<sup>2</sup>** can help ...

- balance out fluctuations in the Schumann earth resonance & field conditions
- reestablish a connection to the elemental force of the earth (grounding)
- increase life energy
- promote focus & concentration
- increase general well-being
- improve mental clarity

## The basic functions of the B<sup>2</sup>

The Schumann frequency, also known as the earth's frequency, is more than just a physical vibration. It is fundamental to the balance of body and mind.

The **BUBBLE<sup>2</sup>** acts as a personal “grounder”, simulating the course of the Schumann field conditions & frequencies.

In this way, the earth's fundamental frequency is not only transported, but actively integrated into everyday life in order to develop the full potential of your life energy.

## Sferics (atmospheric impulse)

The transmission of all frequencies takes place with a Sferics-like progression.

“Sferics“ refers to the pulsed occurrence of electromagnetic waves of natural origin in the earth’s atmosphere.

The BUBBLE<sup>2</sup> uses this Sferics-like technology to optimize the transmission of frequencies and provide you with an effective solution for your health and well-being.

## Wearing the B<sup>2</sup> properly

The BUBBLE<sup>2</sup> is preferably worn on the chest just below the sternum, near the area of the solar plexus.

According to chakra teachings, this particular positioning facilitates pure life energy and creates a direct connection between the solar plexus chakra (gut feeling/healthy digestion) and the third eye chakra (subconscious/consciousness/well-being center) and feeds the morphogenetic energy field.

This special positioning enables the BUBBLE<sup>2</sup> to focus its innovative functions on these energy centers.
